

TEAKIA<sup>TM</sup>  
“Solid Wood Furniture”

# Company Profile

FORM. FUNCTION. FINESSE.

# About Us

## History

- 1999 – Established
- 2007 – Set Up Business In Malaysia
- Now – Shipping Furniture Around the Globe

At Teakia, we believe that furniture should be more than functional—it should tell a story. Since our beginning, we've been dedicated to creating beautifully crafted pieces that blend timeless design with everyday comfort.

From homes to hotels, our furniture brings warmth, quality, and meaning to every space.

Teakia started with a simple idea: furniture should feel personal. Not just something you use, but something that brings warmth, character, and meaning to a space.

We began as a small team of makers who cared deeply about craft, about the feel of real wood, the beauty of clean lines, and the satisfaction of creating something that lasts.

Because to us, it's not just furniture. It's what brings a space to life.

*“Made with hands, guided by heart.”*

# Our Vision

At Teakia, we aim to bring timeless beauty into homes of all styles and cultures. Every space we design is a reflection of the people who live in it: unique, personal, and full of character. That's why each project is carefully tailored, with thoughtful attention to the materials, forms, and details that bring it to life.

Through a seamless and organized approach, we guide every client from vision to completion. The Teakia collection is defined by bold craftsmanship and natural elegance, where design and durability come together in perfect harmony for refined, welcoming homes.

# Our Mission

Handcraft  
Design Quality

Teakia is committed to crafting premium furniture that blends durability, comfort, and timeless design. We serve both homeowners and commercial clients in Malaysia and internationally, offering faster lead times, consistent quality, and competitive pricing through our in-house production capabilities.

Rooted in integrity, sustainability, and craftsmanship, we use legally sourced timber backed by official certifications. Our approach reflects a deep commitment to honest practices, thoughtful design, and long-lasting performance.

As furniture specialists, we aim to be a trusted name known for reliability, superior value, and products built to endure the demands of daily living—season after season.

- ## Craftsmanship & Quality

Every piece we create reflects our dedication to skilled craftsmanship and uncompromising quality. From precise joinery to the careful selection of materials, we ensure each product is built to last and made to impress.

- ## Sustainability & Responsibility

We are committed to ethical practices that respect both people and the planet. From using legally sourced, certified timber to minimizing waste in production, we take responsibility for our environmental impact and strive to make choices that support a more sustainable future.

- ## Integrity & Transparency

We believe in doing what's right—even when no one's watching. Our business is built on honesty, clear communication, and delivering on our promises. We're transparent in our processes, pricing, and materials, ensuring our clients know exactly what they're getting—every time.

- ## Customer Centric Thinking

Whether we're working with homeowners, designers, or large-scale hospitality projects, we tailor every experience to the client's needs. From one-on-one consultations to full-scale B2B solutions.

# Core Values

## Project Design

At Teakia, our values are the foundation of everything we do. We take pride in \*craftsmanship and quality, ensuring every piece reflects meticulous attention to detail and durability that stands the test of time. Our commitment to sustainability and responsibility guides us to use certified, legally sourced materials and make conscious choices that respect the environment.

We believe in integrity and transparency, maintaining honest communication and delivering exactly what we promise. With a strong focus on customer-centric thinking, we listen, adapt, and aim to create real value for every client—whether furnishing a home or a large-scale commercial space.

Above all, we aim to build trust through consistency. Every decision we make is driven by a long-term vision—to create furniture that people rely on, and a brand that stands for reliability, authenticity, and enduring value.

# Company Culture

## Where Craft Meets Culture

At Teakia, we're driven by passion and purpose. Our culture blends tradition with creativity, where designers and artisans work side by side to craft something meaningful. We believe in open collaboration, respect for the process, and staying inspired by nature and new ideas.

It's a space where craftsmanship is celebrated, and every voice adds value to what we create.

We take pride in our roots but never stop evolving, always learning and growing together. The energy here is calm, focused, and grounded in the belief that great design starts with a great team.

# Goals

## Craftsmanship and tradition

At Teakia, our goal is to become a leading name in high-quality, design-driven furniture—especially in the outdoor category. We aim to expand our presence across Malaysia and beyond by consistently delivering products that combine comfort, durability, and timeless style.

Through continuous innovation, sustainable practices, and a strong focus on customer satisfaction, we strive to build long-term relationships and set new standards in both residential and commercial furnishing.

We aim to craft timeless furniture that elevates everyday spaces, grow our global B2B and B2C presence, and lead with sustainability, innovation, and care in everything we do.

# Production

## Work Spaces

At Teakia, every piece of furniture begins with a commitment to quality and is brought to life through skilled in-house production. Our manufacturing takes place under our full supervision, allowing us to maintain complete control over material selection, construction techniques, and finishing details.

By managing production internally, we ensure consistency, faster lead times, and the flexibility to meet both standard and custom requirements without compromising on craftsmanship or design integrity.

Our production team follows precise processes that blend traditional woodworking skills with modern machinery to achieve clean finishes and long-lasting strength. Sustainability is integrated into our operations through responsible sourcing, waste reduction, and efficient material use.

From raw timber to final assembly, every step is guided by care, control, and a passion for creating furniture that's built to last.

# Our Materials

Crafted with care. Chosen for durability and timeless appeal

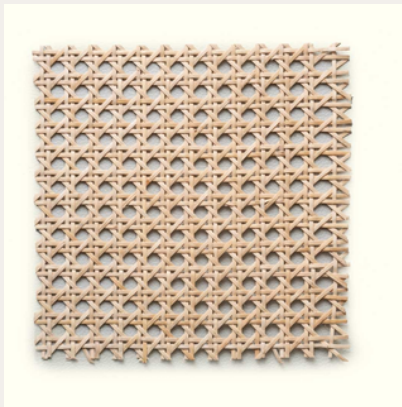

## Teak

## Upholstery

## Rattan Peel

## PE Wicker

## Rattan Core

## Steel

## Papercord

# Sustainability.

Rooted in Nature. Designed to Last.

At Teakia, every piece of furniture begins with a commitment to quality and is brought to life through skilled in-house production. Our manufacturing takes place under our full supervision, allowing us to maintain complete control over material selection, construction techniques, and finishing details. By managing production internally, we ensure consistency, faster lead times, and the flexibility to meet both standard and custom requirements without compromising on craftsmanship or design integrity.

We take pride in using solid wood—primarily premium-grade teak—in all of our furniture. Unlike composite or engineered materials, solid wood offers unmatched strength, natural beauty, and longevity. It allows us to create products that age gracefully and withstand years of use, especially in outdoor environments.

Our dedication to using genuine timber reflects our belief in authenticity, quality, and craftsmanship. By avoiding synthetic or low-grade substitutes, we ensure that every piece we produce maintains the integrity and character that only solid wood can provide.

Our production team follows precise processes that blend traditional woodworking skills with modern machinery to achieve clean finishes and long-lasting strength. Sustainability is integrated into our operations through responsible sourcing, waste reduction, and efficient material use. From raw timber to final assembly, every step is guided by care, control, and a passion for creating furniture that's built to last
